## How you can get Warranty Service

To obtain service under this Warranty, you must promptly contact DuPont at [building.dupont.com](http://building.dupont.com) or call 1-833-338-7668 regarding any potential claim, no later than thirty (30) days after you discover or reasonably should have discovered any potential claim, and you MUST provide DuPont within the 50-year warranty period proof of purchase and DuPont issued project specific warranty certificate.

You must provide DuPont with a reasonable opportunity to inspect the building after DuPont receives notice of your potential claim. You must also provide DuPont access to recovery of samples of the Products from the actual installation in sufficient quantities in order to perform testing to determine whether or not the DuPont Product failed as set forth herein. If obtaining the required samples proves not to be feasible, in the alternative, DuPont may use retainer samples for DuPont Products manufactured from the same lot as those used in the actual installation. All sampling and testing costs shall be at Owner's sole expense should the investigation reveal the alleged problem to be outside the scope of this warranty. All testing shall be conducted at an accredited third-party lab or equivalent.

Any repair or modification of the Product, whether or not by a DuPont-approved roofing contractor, will void this Warranty unless DuPont has been given thirty (30) days' advance notice, or, in the event of an emergency requiring immediate repair, earliest possible notice by telephone, to permit DuPont at its discretion to arrange to monitor the repair or modification.
