- Paintable, stainable and sandable<sup>3</sup>
- Grey-colored foam for easy identification
- Trimmable, sandable and paintable
- UL classified
- CCMC 13074-L

Pest-free without the pesticides, GREAT STUFF PRO<sup>™</sup> Pestblock Polyurethane Foam Sealant expands to form a long-lasting, airtight and water-resistant barrier that blocks critters from entering the home while boosting energy efficiency.

### Specially formulated to block pests

GREAT STUFF PRO<sup>™</sup> Pestblock Polyurethane Foam Sealant is a gun-applied, insulating foam sealant that expands up to 3 inches to take the shape of gaps, creating a long-lasting, airtight and water-resistant seal that blocks a wide range of pests from entering the home, including:

- Spiders
- Bees
- Ants
- Cockroaches
- And more<sup>1</sup>

### Reduces air leaks and energy costs

In addition to blocking pests, GREAT STUFF PRO<sup>™</sup> Pestblock Insulating Foam Sealant seals holes, gaps and cracks to help keep air from leaking out of or seeping into the home. Air sealing and insulating projects around the home can typically save homeowners up to 30% on home energy costs, according to the Residential Energy Services Network (RESNET).

<sup>1</sup>Consult the label and Material Safety Data Sheet carefully before use.  
<sup>2</sup>70 ± 5°F and 50 ± 5% RH, 1-inch bead diameter, 6-inch length. The cure rate is dependent on temperature, humidity, and size of the foam bead.

<sup>3</sup>Skin of cured foam can discolor if exposed to natural light; paint or coat foam for best results.

### DuPont Polyurethane Foam Insulation and Sealants

**CAUTION:** When cured, these products are combustible and will burn if exposed to open flame or sparks from high-energy sources. Do not expose to temperatures above 240°F (116°C). For more information call the DuPont Contact Center at 866-583-2583 or contact your local building inspector. For emergencies contact Chemtrec 800-424-9300, CCN (Contract Number) 7442.

Great Stuff™ contains isocyanate and a flammable blowing agent. Read all instructions and (Material) Safety Data Sheet (MSDS), carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear long sleeves, gloves, and safety glasses or goggles. Not for use in aviation, or food/beverage contact, or as structural support in marine applications. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure. Not to be used for filling closed cavities or voids such as behind walls and under tub surrounds; this improper use of the product could result in the accumulation of flammable vapors and/or uncured material. Failure to follow the warnings and instructions provided with the product, and/or all applicable rules and regulations, can result in injury or death.

Building and/or construction practices unrelated to building materials could greatly affect moisture and the potential for mold formation. No material supplier including DuPont can give assurance that mold will not develop in any specific system.
