

# Tile Bond™

## DuPont™ Tile Bond™ Now 2X\* Stronger

Use DuPont™ Tile Bond™ Roofing Adhesive with the 2020 Florida Building Code's New Uplift Requirements

### Adoption of 2020 Florida Building Code Brings Increased Uplift Requirements

The recent implementation of the 2020 Florida Building Code (FBC) brought increases to the uplift requirements on roofing.

DuPont™ Tile Bond™ Roofing Adhesive now provides double the uplift resistance\*.

### Advantages of Tile Bond™

Tile Bond™ has been trusted to secure tile roofs for nearly 30 years. In addition to meeting the increased uplift requirements, it brings ease of installation and jobsite efficiency to the projects since it is a single-component foam.

Tile Bond™ is factory calibrated, moisture cured, easy to carry, enables multiple installers to work at once, and allows work to easily be stopped and restarted, making it an excellent product of choice.

✓	Factory calibrated: Ready to use, no off-ratio concerns
💧	Moisture cured: may use on wet surfaces
👉	Small, lightweight, easy to carry cylinders: No long hoses to haul from the ground, no tank deposits
🕒	Improved efficiency – have multiple installers working at once
🔧	Restartability: cylinder can be easily shut off, stored, and restarted numerous times

\*DuPont™ Tile Bond™ Roofing Adhesive provides double the uplift resistance when compared to its previous Miami Dade County tile NOA uplift values for concrete tiles.
